BUILDING OPERATIONS

SOUTH AUSTRALIA

JUNE QUARTER 1968

SCOPE This bulletin gives information about "new building" operations in South Australia; in addition to a summary for the period 1963-64 to June 1968 it shows details concerning houses and flats, other buildings, employment in the industry, and dwellings in local government areas. The information has been compiled from returns collected from all builders of new buildings.

DEFINITIONS New Building: Alterations and additions of \$10,000 and over to existing buildings are included, but minor additions, alterations, repairs and renovations, and all construction activity such as railways, bridges, earthworks, water storage, etc., are excluded.

Value: All values shown exclude the value of land, and except in Table 5, represent the value of buildings upon completion (see also "Completion"). Values shown in Table 5 represent the amount of work done on new buildings during the period and are not subject to the fluctuations from period to period noted in Table 3 in the values of "new buildings other than dwellings"; these fluctuations are partly the result of the unequal incidence of individual large contracts.

Commencement: A building is recorded as commenced when work on the foundation has begun.

Under Construction: Once commenced, even though work on it may have been temporarily suspended, a building is classified as "under Construction" until its "completion".

Completion: A building is regarded as having been completed when the contractor has fulfilled the terms of the contract or in the case of an owner-built house when the dwelling is either completed or occupied (whichever occurs first). However, the value in all cases is that of the building as a finished project as planned.

COMMENTS 1,501 houses were commenced and 1,738 were completed during the three months ended June 1968. Commencements were 154 less than in the March quarter 1968 and 513 less than in the June quarter 1967. Completions were 207 more than in the previous quarter but 481 less than in the June quarter, 1967.

The total of 1,974 dwellings (houses and flats combined) commenced was 82 less than in the preceding quarter and 435 less than in the June quarter 1967.

There were 11,370 persons recorded as employed on building jobs at 28 June 1968. This was 398 less than on 29 March 1968 and 1,097 less than on 30 June 1967.

Note: Building employment covers all contractors and sub-contractors and employees of contractors, sub-contractors, and Government instrumentalities, who on the day specified were actually engaged on the construction, alteration, repair, and maintenance of buildings, but excludes persons working on owner-built houses or for contractors or sub-contractors who undertake only alterations, additions, repairs and maintenance. Persons "actually engaged" include those temporarily laid off because of weather. Some duplication may occur as a result of frequent movement between jobs or because some persons (such as electricians) may work on several jobs which are under construction simultaneously.
